Freedom to innovate

Packed with state-of-the-art technology, the Zens range of innovative wireless charger are developed for both consumers and business, and designed to empower people to improve the way they live.

Freedom to charge everything

In our daily lives almost everything is connected. Endless possibilities for the future are still laying ahead of us. Please take a look at the future of wireless charging.

Freedom to connect

We share our innovation with top brands in the market. We are proud that our technology keeps these references connected.

Turn tables into chargers

With built-in wireless charging, office furniture can be your new power source with the PuK wireless charger.

Meet the new arrivals

Wired and wireless, the perfect mix.
Charge up to 3 devices simultaneously and
leave the clunky power adapters at home.
Just plug in a cable or lay down your
device and your low-battery days are over.

PuK Combi USB-C PD

Fast charge your Laptop/MacBook and one other USB-C powered device, while wirelessly fast charging your phone, by using the PuK Combi built-in wireless charger.

New
